

DOTPROJECT open source project & task managment

di Paolo Franzese

DOTPROJECT è una piattaforma Open Source per la gestione di progetti complessi e task da assegnare ai componenti del progetto.

DOTPROJECT DEMO

Our dotProject Demo can be accessed at <http://www.dotproject.net/demo/>

ADMIN Access

This will let you do just about anything except administer the users themselves.

Username: admin

Password: admin

Don't reset the password – it just inconveniences others in the short term.

GUEST Access

This is a restricted READ-ONLY USER and lets you see how the permissions work.

Username: guest

Password: guest

Don't reset the password – it just inconveniences others in the short term.

Sito web: <http://www.dotproject.net/index.php>
