Simple jQuery Spy Effect

di Paolo Franzese

Interessante jQuery per riprodurre un meraviglioso effetto Javascript:

A few years ago Digg released a very cool little visualisation tool they dubbed the Digg Spy (it's since been upgraded to the *Big Spy*). Recently Realmac Software released the site QuickSnapper to accompany LittleSnapper.

It's the QuickSnapper site (the left hand side) that makes use of the similar *spy* technique that I'll explain how to produce.
