Automated CSS Tools and Generators

di Paolo Franzese

Come generare automaticamente **layouts** e **CSS**:

1. CSS Creator: Select the form colors, number of columns, html version, and press a button. Presto, a CSS template for your page.
2. Inknoise: The layout-o-matic: fill out the form and out pops your CSS.
3. Strange Banana: Simply refresh the template generator until you get the style you like, then save the page which has your CSS embedded in the header.
4. Nidahas: A CSS-based form template.
5. Maketemplate: A PHP – HTML – CSS template generator for two column layouts.
6. IBDjohn: CSS template generator for three column layouts.
7. TemplatR: Another easy CSS template generator.
8. PsycHo: Your own psychogenesis, your own web design template.
9. Firdamatic: Tableless 2 or 3 column layout generator.
10. WordPress Theme Generator: Online generator creates custom unique WordPress themes.
