THE ANATOMY OF A PERFECT WEBSITE
525,998,433 – The number of websites as of November 2011- netcraft.com
Web Design: Browser statistics
Everything is designed. Few things are designed well. – Brian Reed
Internet Explorer 40.26%
Google Chrome 25.7%
Mozzilla Firefox 25.43%
Safari 6.14%
Opera 1.77%
Google's browser Chrome overtook Firefox for the first time globally on a monthly basis in November, according to StatCounter, the free website analytics company.
Web Design: Most popular screen width statistics
Higher 85%
1024 x 768 14%
800 x 600 0%
640 x 480 0%
Other 1%
The current trend is that most computers use 24 or 32 bits hardware to display 16,777,216 different colors. Older computers often use 16 bits display hardware, which gives a maximum of 65,536 different colors.
4.13% of all websites have valid HTML and CSS
