

medium.com il social media di Twitter

di Paolo Franzese

The screenshot shows the Medium.com homepage. On the left, there's a large, stylized title "IMAGINEPAOLO" with a background image of a sunset or sunrise over water. To the right, there are two main sections: "POSTS" and "COLLECTIONS". Under "POSTS", there's a post by MG Siegler titled "Rule #1: Don't Be A Profiteering Asshole" from "Writers on Writing". The post preview includes a small image of a landscape and some text. Under "COLLECTIONS", there are four cards: "A Good Cause" (44 posts), "About Medium" (11 posts), and "Adventures In Consumer Technology" (52 posts). Each card has a small thumbnail image and the collection name.

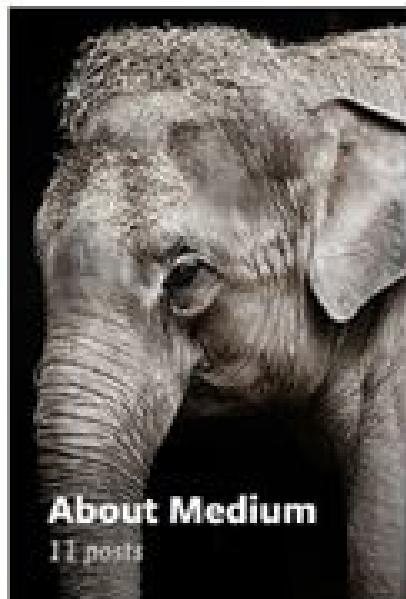

Ed ecco un altro Social Media: medium.com, un social media dedicato che sa scrivere contenuti, a chi fa blogging.

Molto simile a [pinterest.com](#) solo che i contenuti sono testuali e fotografici.

Abbiamo per adesso due sezioni:

POSTS **COLLECTIONS**
